## CASE STUDY PROJECT CARGO

### PREMIER STEEL FABRICATOR BREAK-BULK AND HEAVY-LIFT PROJECT CARGOES

TradeLink recognised for overall project management of heavy-lift cargo assets and delivering a successful project, once again, on time and on budget.

## SCENARIO

Our client, a premier steel fabricator and widely known as a single source for complete steel fabrication, robotic welding and laser cutting, distributing large-scale projects world-wide. On behalf of our client, TradeLink has project managed International and Trans-border heavy-lift and oversized cargo moves from Ontario Canada to Thailand, Poland and USA.

## THE CHALLENGE

Our client sought a logistics supplier to provide a solution for the door-to-door handling of oversized and heavy-lift project logistics, to international and trans-border destinations including the provision of packaging solutions, cargo preparation and securing of loads. Typical client project requirements included:

- International or trans-border moves of heavy-lift and oversized cargo averaging 20,000 freight tons.
- Standard wood blocking, tarps and nylon slings to be supplied by carrier. Loads must be tarped.
- Door-to-Door project movement with carrier specialist equipment: Flat-bed trailers & Open-Top Container.
- Lead-time, delivery target and logistics budget compliance.

## THE SOLUTION

TradeLink's tailored solutions capitalise on a long established track record for successful project managing Break Bulk (BB), Heavy Lift (HL) and Out of Gauge (OOG) cargo on behalf of our client. Drawing upon our depth of expertise, multi-modal carrier relationships and local specialist project capabilities our solutions include:

- Overall Project management and coordination between all client site, contractors and door delivery.
- Consulting and provision of transport packaging including crates, tarps, lashing and slings.
- Capacity planning, scheduling and procurement with Ocean, Rail and Flat-bed Truck carrier partners.
- Pre-carriage movement of heavy-lift cargo by road and special permits, export formalities and documentation.
- Inland transportation and cargo lift at destination site.

## THE RESULTS

The successful completion of our clients projects delivering, on average, 20,000 freight tons of oversize and heavy-lift project cargoes on time and on-budget and earning TradeLink the recognition of:

- Single-source solution for movement of project assets.
- Tailored project design and industry expert team resulting in efficient pricing and project handling.
- Project lead-time and schedule compliance.
